ABOUT CO-STONE

A refined and economical way to add a distinctive touch to your home or commercial space. Concretta CO-STONE combines natural stone with a transparent binder to create a durable, environmentally compatible and timeless flooring system.

Suitable for living spaces, balconies, terraces, pool surrounds, walkways and commercial interiors. Different stone sizes and colour options create a project-specific surface character.

01 / BENEFITS

Advantages

Strong performance, natural appearance and design freedom

01

DISTINCTIVE & ECONOMICAL

Delivers high decorative impact with a controlled budget in new-build and renovation projects.

02

CUSTOM COLOUR SELECTION

Stone colour and aggregate size can be coordinated with the project's architectural palette.

03

INDOOR & OUTDOOR

Suitable for balconies, terraces, pool surrounds, walkways, shops and living spaces.

04

COMFORTABLE TEXTURE

Combines the natural stone appearance with a warm, balanced surface that is comfortable underfoot.

05

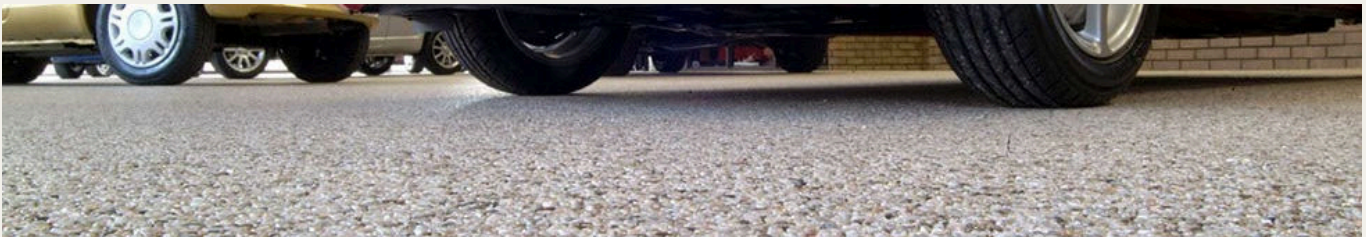

HYGIENIC SURFACE

An easy-to-clean, easy-maintenance alternative to textile flooring that traps dust.

06

LONG-LASTING

With the right substrate, application and maintenance, it delivers durable performance under heavy use.
