

01 / WARRANTY

Concretta Microcement

Warranty certificate

WARRANTY COVERAGE

Concretta warrants that, provided the application guidelines are followed, Concretta Microcement is covered by a 2-year warranty from the date of purchase against the following:

01

CRACKING WARRANTY

Concretta Microcement will not crack. If a crack occurs in our microcement, it is always caused by cracking in the substrate to which it has been applied.

02

ADHESION WARRANTY

We guarantee that Concretta Microcement will not peel or flake from the surface to which it has been applied.

03

COLOUR WARRANTY

We guarantee that there will be no significant fading or colour change over time in interior applications. On exterior facades, we guarantee that our muted colour range will not darken; we do not recommend using bright or intense colours outdoors, as they may be affected by atmospheric conditions over time.

04

APPLICATION WARRANTY

For projects carried out by our company, responsibility for any application-related issues rests with our company.

WARRANTY EXCLUSIONS

This warranty does not cover structural movement or settlement causing cracking in the building or house, peeling or failure of the substrate, rising damp, impacts, flooding, or scratches or cracks caused by furniture that damages the floor or by improper furniture.

Warranty period: up to 2 years with proof of purchase.
